An act to add Section 11011.23 to the Government Code, relating to state property.

LEGISLATIVE COUNSEL'S DIGEST

SB 1758, as amended, Battin. State ~~personal~~ property: inventory.

Existing law requires the Department of General Services to maintain and update annually a complete and accurate statewide inventory of all real property held by the state and to categorize that inventory by agency and geographical location. This inventory is required to include specified information furnished by state agencies and the University of California.

This bill would require state agencies to report this real property inventory and, in addition, all personal property in its possession or control to the Department of General Services, as prescribed by the department, by March 1, 2005, and to report any subsequent purchases of real *property* or personal property in the amount of ~~\$5,000~~ *\$100* or more to the department. The bill also would require the department to maintain and update the real property inventory and all personal property in a central database.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

1     SECTION 1. Section 11011.23 is added to the Government  
2     Code, to read:  
3     11011.23. In addition to the requirements of Sections 11011  
4     and 11011.15, each agency, as defined by Section 11011.13, shall  
5     report to the Department of General Services in the manner  
6     prescribed by the department by March 1, 2005, all real and  
7     personal property in its possession or control. The agency shall  
8     report to the department any subsequent purchases of ~~real or~~  
9     ~~personal property in the amount of five thousand dollars (\$5,000)~~  
10    ~~real property or personal property in the amount of one hundred~~  
11    ~~dollars (\$100) or more.~~ The department shall maintain and  
12    periodically update an inventory of all real and personal property  
13    in a central database.
